ALLIANCE™ PATIENT LIFTS

Alliance™ Patient Lifts, Slings and accessories are designed to provide the utmost in safety, comfort and affordability to the caregiver and patients. All Alliance Patient lifts and slings are ergonomically designed to make patient transfers as simple as possible. Alliance HE, the homecare edition line of patient lifts, finally offers innovation and affordability to the homecare market:

a homecare lift that can easily be converted from a hydraulic to battery-powered lift with no tools required. Built for years of trouble free use, the Alliance HE lifts feature the same high quality construction as our other Alliance lifts, yet allows your customer to upgrade to a battery-powered version at an affordable price.

Alliance™ HE Hydraulic & Battery-Powered Lifts

- Easily converts from hydraulic to battery power, allowing upgrades at any time
- Quick-snap connections require no tools
- Six-point multi-tilt spreader bar offers additional stability and comfort
- Unique foot pedal base opening for wheelchair/commode access
- Pump pivots to both sides for caregiver convenience
- Low 4.5" (11cm) base height provides maximum stability and fits under newer, lower-clearance beds
- Large easy-to-grip handles allow for superior maneuverability
- Can be easily disassembled for transport
- 400 lb (181kg) safe working load

Easily converts from hydraulic to battery power, allowing upgrades at any time!
